

**44th Anniversary of Native Plant Society of Texas (NPSOT)
2024 Fall Symposium – Hybrid Event
“Preserving Our Botanical Heritage”
October 10 – 12
New Braunfels Civic Center
New Braunfels, TX**

If you and your business are native plant champions – be a vendor or exhibitor at our event!

The Native Plant Society of Texas is a state-wide organization with over 30 chapters and more than 4,800 members who *promote conservation, research and utilization of native plants and plant habitats of Texas through education, outreach, and example.*

The Society has assembled a remarkable schedule of recognized experts to speak about the rich heritage of the plant communities within the Blackland Prairies and Balcones Canyonlands ecoregions. The symposium is open to anyone interested in learning how to restore and preserve our state’s rich and diverse native plant communities. Highlights include plenary and concurrent sessions, workshops, field trips, a silent auction to raise money for scholarships, vendors and exhibitors, and an awards dinner and ceremony honoring outstanding achievements in the field of Texas native plants.

NPSOT Symposium 2024 will draw a diverse audience of about 400 academics, professionals, conservationists, educators, and landscaping experts from across Texas. It should not be missed!

Make the most of this opportunity!

Thank you for choosing to support the Native Plant Society of Texas and the native plant habitats of Texas. The conservation and education goals of the Native Plant Society of Texas benefit us all, but we can’t do it without the generous support of friends like you. As a leader in this community, your support is truly needed – and appreciated – to make this event a success. We hope that you will join us and be a part of this year’s event.
