| Swamp Chestnut Oak | $500 and over  |  - Acknowledgement announced by Wildscapes Workshop moderator at the first online lecture.  
                          - Ticket for 1 class in the Native Landscape Certification Program*.  
                          - One year individual membership in Native Plant Society of Texas.  
                          - Acknowledgement on NPSOT-H Twitter, Facebook, and website.  
                          । Swamp Chestnut Oak (Quercus michauxii) a deciduous, 60-100 ft tree provides cover & nesting site for birds, supports insects providing food for insectivorous birds and is larval host for several species of butterflies. Acorns are food for humans, cattle, deer, waterfowl, and small mammals.  
                          ।*Registration for limited space in NLCP classes is on a first come first serve basis. Announcement about classes during the Covid-19 pandemic will be upcoming. |
| Coralbean Sponsor | $250 - $499    |  - One year individual membership in Native Plant Society of Texas.  
                          - Acknowledgement on NPSOT-H Twitter, Facebook, and website.  
                          । Coralbean (Erythina herbecea) is a winter dormant perennial shrub that early settlers would have encountered on historical prairies and is a nectar source for hummingbirds. |
| Powdery Thalia Sponsor | $100 - $249  |  - Acknowledgement on NPSOT-H Facebook and website  
                          । Powdery thalia (Thalia dealbata) is a wetland perennial plant that grows in dragonfly/damselfly habitat - water or bog gardens. Dragonflies are often found perched on its tip; its flowers provide nectar for butterflies. |
| Leaf Litter Donor | $1 - $99      |  We are grateful for donations of any size to our workshop. Your donation will be acknowledged on NPSOT-H website.  
                          । Leaf litter is featured here to emphasize its importance in the wildscape garden! Leaf litter benefits several species of moths and fireflies pupate in it. Finally, leaf litter eventually turns into rich compost. |

**Sponsoring or donating to the 2020 Wildscapes Workshop cannot be easier!**

- Decide your level of sponsorship/donation.
- Go to the [Eventbrite registration link](http://npsot.org/wp/houston/wildscapes-workshop/). Click “Register” and then choose donation and enter the amount. (Also choose “registration”, if you want to attend the zoom presentations.)
- OR To make a donation by check, fill out the form. (Note: Registration for Workshop is ONLY by Eventbrite.)
- So we can mail you a receipt and acknowledge the donation in the manner that you wish, please fill out the online form at [this link](http://npsot.org/wp/houston/sponsor/) or contact Lan Shen if paying by check.
- For more information, contact Lan.shen@txgcmn.org or call Lan at 713-714-6763.

******* Tear Off For Donation by Check. DOES NOT include Wildscapes Registration. Registration for presentations only by Eventbrite. *******
